

# 2020 Environmental Justice Populations

## Boston Area

### Massachusetts

#### Environmental Justice Criteria:

Environmental Justice (EJ) populations are determined by identifying Census 2010 block groups that meet any of the following criteria:

**Income** the annual median household income is not more than 65% of the statewide annual median household income

**English language isolation** 25% or more of households lack English language proficiency

**Minority population** minorities comprise 40% or more of the population

**Minority population + income** minorities comprise 25% or more of the population and the annual median household income of the municipality in which the block group is located does not exceed 150% of the statewide annual median household income

#### Populations meeting one EJ criterion

- income
- minority population
- English isolation

#### Populations meeting two EJ criteria

- income and minority population
- income and English isolation
- minority population and English isolation

#### Populations meeting three EJ criteria

- income, minority population and English isolation
